To whom this may concern,

During the past four years as Project Manager, Superior Fence and Rail have worked in several of my communities which included town homes, single family and community center construction. Their performance has been top notch at all times and I look forward to a continued professional business relationship as the construction field only continues to grow.

I would recommend and will continue to use Superior Fence and Rail for any project I have now and in the future.

James McNamee
Project Manager
Levitt and Sons, LLC
